

Amphenol®

SurLok Plus® Series

www.amphenol-industrial.com

Company Profile

Endicott, NY

Amphenol Industrial Operations

Amphenol Industrial Operations, headquartered in a 30,000 square foot facility in Endicott, N.Y., provides a full range of high reliability power/signal connectors and interconnection systems specifically for the industrial markets including rail/mass transit, process control, automotive manufacturing, heavy equipment, wireless base stations and petrochemical/power generation.

Products include ruggedized-for-industry cylindrical, rectangular, fiber optic, signal and power, RADSOK power and power-to-board solutions, cable and harness assemblies, as well as industrialized versions of Amphenol's MIL-DTL-5015 cylindrical, MIL-DTL-26482 miniature cylindrical and GT reverse bayonet cylindrical connectors. Amphenol Industrial Operations employs more than 1,400 people globally and is ISO9001, TS96949 and MIL-STD-790 certified.

Amphenol Technology (Zhuhai) Co., Ltd

Established in 2007, Amphenol Technology (Zhuhai) Co., Ltd. is a manufacturing facility for Amphenol Industrial Operations, which serves a number of industrial markets. Included but not limited to Factory Automation, Transportation, Heavy Equipment, Alternative Energy, Energy Storage. Server/Data Comm and Power Distribution.

Amphenol Technology (Zhuhai) Co., Ltd. covers an area of 276,000 ft² and is equipped with CNC, plating, injection molding and assembly workshops. This plant specializes in the design and manufacturing of industrial connectors featuring high power, high density, medium to high voltage electrical properties, and harsh environment applications.

With industry leading engineering, design and manufacturing expertise, Amphenol Technology(Zhuhai) Co., Ltd. has earned more than 60 utility patents on its innovative interconnects. Many of the products produced have been certified by independent standards including UL, IEC/TUV, ATEX, IECEx and MA. The facility is also certified to ISO 9001, ISO 14001 and IATF 16949.

What is SurLok Plus®?

The SurLok Plus® compression lug is a field installable, highly reliable alternative to common compression lugs

Using industry standard crimp, screw, and busbar termination options, thus eliminating the need to purchase special torque tools.

SurLok Plus® is an environmentally sealed version of our original SurLok® but available in smaller sizes, and features a quick lock and press-to-release design. Incorporating the latest R4 RADSOK® Technology. SurLok Plus® is a compact, quick mating, and robust product line.

The RADSOK® high amperage contact technology utilizes high tensile strength properties of a stamped and formed, high conductivity alloy grid to produce low insertion forces while maintaining a large conductive surface area. The R4 version of the RADSOK® represents the culmination of three years of research and development in laser welding copper based alloys.

Markets

The markets and applications for the SurLok Plus® Series include but are not limited to the following:

Energy Storage

EV/HEV*

Process Control/Automation

Heavy Equipment

*Note: 1500V SurLok Plus® option only

Features and Benefits

Keyway	Multiple keyways
Lock	Quick lock and press-to-release design
Plug	360° rotating plug optional
Receptacle	Various termination options (Threaded, Crimp, Busbar)
Voltage	1000V / 1500V optional
Protection	Touch Proof
Design	Compact robust design

- The connector's design incorporates an integral latching system that ensures a definitive electrical and mechanical connection.
- Connector housings are manufactured with a thermoplastic material that is not only durable, but also with excellent dielectric, mechanical properties and meet environmentally RoHS compliant.
- Contacts are derived from quality copper alloy to ensure an electrically-reliable connection.
- UL1977/4128 and TUV 2PFG2740 certified

Rotation

Keyway Reference

Gen 1.0 | 1000V DC Connector:

RADSOK® Size	P/N				Description
	Type	RA Plug	Straight Plug	Receptacle	
5.7mm W/O Keyway	Coded Number	SLPPA()B()()	SLPIPA()B()()	SLPRA()P()()	 360° Rotation
5.7mm W/ Keyway	Coded Number	SLPPA()B()()	SLPIPA()B()()	SLPIRA()P()()	 Non-Rotatable
8.0mm W/O Keyway	Coded Number	SLPPB()B()()	SLPIPB()B()()	SLPRB()P()()	 360° Rotation
8.0mm W/ Keyway	Coded Number	SLPPB()B()()	SLPIPB()B()()	SLPIRB()P()()	 Non-Rotatable
10.3mm Keyway	Coded Number	SLPPC()B()()	/	SLPIRC()P()()	 360° Rotation

Keyway Reference

Gen 2.0 | 1500V DC Connector: Multi-Directional Outgoing

RADSOK® Size	P/N				Description
	Type	RA Plug	Straight Plug	Receptacle	
3.6mm Keyway	Coded Number	SLPHPM()B()()	/	SLPHIRM()P()()	
5.7mm Keyway	Coded Number	SLPHPA()B()()	/	SLPHIRA()P()()	
8.0mm Keyway	Coded Number	SLPHPB()B()()	/	SLPHIRB()P()()	
10.3mm Keyway	Coded Number	SLPHPC()B()()	Coming Q2 2024	SLPHIRC()P()()	
12.0mm Keyway	Coded Number	SLPHPD()B()()	/	SLPHIRD()P()()	

Master Keyway: Orientation of the receptacle is highlighted in the connector images above. From this orientation, the cable exit direction will clock at degree intervals indicated by the specific keyway in the table to the right.

KEYWAY (Y°)	K1	20°	18 Positions
	K2	30°	12 Positions
